ALLEGED ROBBERS IN JAIL

POLITICAL DOINGS.

Louisville, August 19.—It is said that Mr. M. L. Downes, one of the candidates for railroad commissioner before the October convention, will at once withdraw. Following the withdrawal of Mr. Allen B. Smith and the withdrawal of Mr. Henry Waterson from the race for governor, the withdrawal of Mr. Downes is taken to mean the nomination of Mr. McChord in October, 1902, and the unanimous nomination of Mr. Beckham some time next year by the Democratic convention of Democratic primaries.

REPUBLICANS IN THE THIRD.

Bowling Green, August 19.—Republican clubs from all over the Third district are gathered here today to nominate a candidate for congress. Among them are many prominent members of the party and with them sprinkling of Brown Democrats, many of whom are still true to McKenzie Moss and his interests and will participate in the convention and vote for him in November.

SAFE IN JAIL.

Hartford, August 19.—J. W. Boatner and Robert Schlitzbaum, the men accused of having been implicated in the robbery of the express company of \$28,000, and held over yesterday, were brought here in huggies by deputy sheriffs.

HOOM FOR GOVERNOR.

Frankfort, August 19.—A boom for Frank Peak for the Democratic nomination for governor has been started by a number of his friends. It is believed to be wholly without his knowledge.

INHUMAN TREATMENT.

MRS. HALLIE CHILES ASKS FOR CUSTODY OF CHILDREN.

Hallie E. Chiles has filed a suit in circuit court against her husband, W. S. Chiles, praying for a judgment against him for bed and board and asking for the custody of their two children, Lottie and Martin, aged 14 and 10 respectively, alleging cruel and inhuman treatment and drunkenness her grounds for the action.

TO SETTLE ESTATE.

A suit was this afternoon filed in circuit court by F. G. Hindolph, administrator of Mary O. Williams against Ida Greer and others to settle the estate, which amounts to about \$3,000.

ONE STRIKER SHOT

Trouble Reported in the Anthracite Regions Last Night Again.

A Deputy Shoots One of the Miners and Kills Him Instantly.

MORE TROOPS MAY BE ASKED

Newquehoning, Pa., August 19.—In a clash between striking mine workers and deputies here last night Patrick Sharp, a striker of Lanthford, was shot and killed almost instantly by a deputy. The shooting caused considerable excitement for a time, but order was soon restored without any other persons being injured, and the town is now quiet. A deputy named Harry McElmoyle was arrested, charged with the killing of Sharp, and was taken to the county jail at Muncie Chuk.

The shooting occurred shortly after 6 o'clock. Five deputies were on their way to Shaft No. 1, of the Lehigh Coal and Navigation company, just outside of the town. In the center of the town they were met by a number of strikers, who began persuading them not to go to the colliery. The officers did not stop, but kept on their way and tried to prevent any trouble. The strikers, it is said, then began to abuse the men and followed them nearly up to the colliery.

There are conflicting stories as to what actually brought on the clash, but just before the deputies entered the place a shot was heard and Sharp dropped to the ground. The bullet entered his body close to his heart and he died almost instantly. Witnesses say that the shooting was done by McElmoyle and that he stood only six or seven feet from Sharp when he fired his revolver. Only one shot was fired.

The deputies immediately withdrew to the colliery and a large crowd gathered about the place. When it was learned that Sharp was dead there was the greatest indignation among the strikers and other townspeople, and for a time it looked as though serious trouble would follow. Cooler heads among the mine workers, however, prevailed upon the crowd to disperse, using the argument that if there is any bloodshed troops will surely be sent here from Shenandoah. McElmoyle was taken to jail at Muncie Chuk.

Sheriff J. H. Clombert of this county is at Muncie Chuk. It is reported here that he may ask that a detachment of the troops now stationed at Shenandoah be sent into the Panther Creek Valley.

WAR ON VAGRANTS.

OFFICERS MAKE IT LIVELY FOR THEM IN FULTON.

Fulton, Aug. 19.—Officers commenced a raid on pistol carriers yesterday. The first three arrested were white men—Jim Powers of Harris, Tenn., H. S. Clements and M. T. Tucker, of Wickliffe county. Mayor Milner fined them \$25 each, and as they were going away Judge Roberts, on behalf of the county, soaked them \$15 more. All kinds of crooks, tramps and loafers are ordered away from the city.

VAGRANTS MUST GO.

The local officers are making vagrants scarce and this afternoon early Will Grant, colored, and Richmond Berry, alias "Shang," colored, were arrested for vagrancy. The officers are determined to break up the loitering crowd of negroes that congregate about the corners.

DR. BROOKS' IDEA

What He Thinks Paducah Should Have in the way of a Hospital.

It Should Have Paid Wards and Should Be Inside the Sewerage District.

NO LOCATION SELECTED AS YET

Dr. J. G. Brooks, chairman of the hospital committee of the council, who has been strongly advocating the new city hospital project, and last night introduced a resolution to build a new one, said this morning in regard to the council acting favorably in the matter:

"This is something that has long been needed, and the only reason it has not been built lies in the fact that no one has pushed it hard enough."

"Paducah is large enough to have one of the best hospitals in the state and it would pay for itself. We can secure the nursing for nothing almost by engaging one good trained nurse with assistants, who will serve for three years as apprentices. Then we will have a private paid ward or suite of paid rooms, for patients who are not thrown on the city for treatment, and the income derived from this will be large indeed. There have been many plans recommended for the building, but the one I favor is what the medical journals call the 'cottage plan' and I will write and get a drawing or picture of one so that the architects can readily see what is wanted. The hospital will of course have to be located within the sewerage district or within easy reach, so that no extension can be made. The size I think should be 25 rooms in the pauper department and not less than 10 in the paid department."

The city, however, has only taken the preliminary steps to secure a new hospital and it may be some time before plans mature. No site is now held in mind by the committee, but it is likely that no trouble will be found in securing one.

ELOPED TO METROPOLIS.

Mr. Protus Moyers and Miss Ada E. Haynes of Rudd, Ky., eloped to Metropolis yesterday and were married by Justice Liggett, returning to the city last night and leaving for home today.

ALLEGED ROBBERS

Boatner and Schlitzbaum Held at Fordsville Yesterday.

Their Bonds Fixed at \$30,000, Which They Failed to Give and Went to Jail.

A VERY MYSTERIOUS CASE

Fordsville, Ky., August 19.—The examining trial of J. W. Boatner, charged with attempting to defraud the American Express company out of \$28,000, was finished before Magistrate T. A. Evans in the school house yesterday afternoon.

Some of the evidence points toward a conspiracy between A. B. Schlitzbaum, agent for the express company here, and Boatner. One of the witnesses testified that the men were together near Deafield Sunday, and others saw Schlitzbaum in that vicinity.

The charge against W. A. Anll, whom Schlitzbaum said was one of his assistants, was dismissed upon motion of the commonwealth. Anll made an effort to escape, but was captured before he got out of town.

Boatner and Schlitzbaum were each held to answer to the grand jury in the sum of \$30,000 by Magistrate Evans.

After Boatner's trial Schlitzbaum waived examination.

The men were taken to the jail at Hartford last night.

Schlitzbaum was put on the stand to testify against Boatner, but after protesting against the questions asked by Mr. Henry Taylor, who conducted the prosecution, declined to make further answer. Boatner declined to testify in his behalf.

LARGE BOILER.

HEATING APPARATUS BEING PLACED IN THE SCHOOLS TODAY.

The new heating apparatus are being put in the Washington and Jefferson buildings today. They cost several thousand dollars and were ordered by the board of education several weeks ago.

The boiler that goes in the Washington school is the largest in the city of its kind, being 16x25 feet.

ALL OFF FOR CHICAGO

One of the Largest Excursions Ever Run to Chicago.

Four Coach Loads Left Paducah This Morning Over the Illinois Central.

MANY OTHERS ARE PICKED UP

The Chicago excursion which started from the local I. C. passenger depot at 9:30 this morning was one of the largest in the history of the city, and all the four coaches were packed when the train pulled out. Three hundred and fifty tickets were sold from the passenger depot and nearly 150 from the freight depot, making a total of about 500 tickets sold out of Paducah.

Parties from Fulton and Mayfield and many other smaller cities nearby were here to take advantage of the cheap rates, and the following is a partial list of those in the crowd:

There was also a coach filled with colored excursionists and when Brookport is reached more coaches will be added to accommodate the increasing crowd all along the line.

There were about 30 excursionists from Mayfield and about one dozen from Fulton and other points between Fulton and Paducah who came in on the early morning train to take advantage of the low rates.

SEVERAL OUT.

LIKELY TO BE A CONTEST FOR MILK AND MEAT INSPECTOR.

It seems that the office of milk and meat inspector will be sought after by several local doctors, although no official applications have been put in. It is said that Dr. Hensig will be a candidate for re-election and that Drs. Warner and Duley will put in applications for the office also.

THE TIME IS BRIEF

Until the Democratic Punch and Judy Show Begins Here.

Chairman Emery Says He Knows as Much Law as Anyone and Is There to Stay.

ARRANGE FOR NOMINATIONS

The Democratic city and county committees both meet tomorrow afternoon, and while their action cannot be forecast, it is probable that there will be a lively time. Chairman Charles Emery, of the county committee, states that nothing the county committee can do will amount to anything, as Frankfort is the court of last resort for county committee action, and nothing will there be recognized without his indorsement, and he has called no meeting and sees no occasion for one.

There seems likely to be a warm time in both committee meetings, however, over numerous questions to come up. The county committee is among other things to select a list of five names to be forwarded to the state election commissioners from which to select the Democratic member of the McOracken board, while Chairman Emery, it is understood, has already sent in his list, and one from the latter will be chosen. The county committee, also, it is understood, will undertake to depose both claimants to the chairmanship and elect a new chairman, which, it is alleged, will not be sanctioned by the state central committee, which is backing Chairman Emery.

The city committee is to take steps to put out a ticket for aldermen and also consider the question of whether or not a treasurer, city engineer and other officers are to be elected at this election.

As to the offices that are to be filled, it is predicted that the city committee will provide for the nomination of aldermen, member of the school board from the Third ward, city engineer, city jailer and treasurer.

The county committee for nominations for coroner and magistrate in the district now represented by Justice J. H. Burnett.

The law along this line seems to conflict, the constitution saying that no city or county officers, except members of the municipal legislation bodies—councilmen and aldermen—shall be chosen in the same year that a representative from congress is elected.

THE LAW SAYS, HOWEVER:

Section 152. Appointment or election—when filled by—If the unexpired term will end at the next succeeding annual election at which either city, town, county, district or state officers are to be elected, the office shall be filled by appointment for the remainder of the term. If the unexpired term will not end at the next succeeding annual election at which either city, town, county, district or state officers are to be elected, the office shall be filled by appointment until said election, and then said vacancy shall be filled by election for the remainder of the term. If three months do not intervene between the happening of said vacancy and the next succeeding election at which city, town, county, district or state officers are to be elected, the office shall be filled by appointment until

THE COUNCIL SESSION

Much Business was Transacted Last Night at the Meeting.

All the Important Questions Deferred—Water Filtration, New Hospital and Bond Matters not Settled.

NEW LIGHT PLANT ORDINANCE

The councilmanic board met last night in regular session with only one member, Councilman Gilson, absent.

The mayor reported the sale of the two street railway franchises, which were ratified.

He also reported that he had released the sinking fund to the American-German bank at 4 per cent.

The deed to the library property at Ninth and Broadway, and the \$5,000 bond of the telephone company, were received and filed.

The matter of street improvements was referred to the street committee. The mayor called attention to the need of improvements, and recommended more paved streets, bonds to be issued if necessary.

Assistant Fire Chief Angustus was allowed full salary for July on recommendation of the commissioners. It had been held back because he was away for his health.

A number of bills presented by Chairman Fowler of the finance committee, were allowed.

The ordinance making the chief of police absolute head of the police department was given first passage with Taylor and Potter voting no.

The ordinance requiring ordinances, etc., copied in full on records was given final passage.

The cattle herders ordinance was given final passage.

The ordinance providing for the improvement of Jefferson street to Twenty-fifth street was presented but Engineer Washington reported that all the property is not owned by the city and the matter was then referred.

An ordinance was given first passage providing that the electric plant is to be placed in the hands of the joint light committee of the general council, which committee under it is to employ all men in the plant from the superintendent down, at a total cost not exceeding \$315 a month. Heretofore the superintendent has been a city official, and subject to the requirements of law like other officials. Under the ordinance he is a hiring and may be a stranger or citizen as the committee sees fit. Councilmen Hannan and Johnson opposed it and said that the various committees should all be given absolute control over their departments. It was explained by Councilmen Hummel and Woolfolk, who championed the ordinance, that the object was to secure better service, as the ordinance would enable the committee to discharge a man at any time without the formality of preferring charges and a trial. It is probable a hot fight will yet be made against the ordinance.

The steam heating ordinance was given first passage.

The ordinance regulating the planting of telephone poles and the stripping of wires was given final passage.

Two ordinances were referred to the railroad and telegraph committee. They were introduced at the instance of Councilman Potter, and one provides that an overhead bridge or elevated tracks be built by the Illinois Central at Tennessee street, and the other that all railroads entering the city be required to put up automatic gates at all intersections with streets.

There was some little opposition to the overhead bridge, as people are not compelled to cross at Tennessee street, the Banner fill having been built especially to enable them to go in another direction.

The fire commissioners reported two disabled horses in the departments.

and Mayor Yeiser was authorized to sell and purchase new ones.

The sale of 4,000 feet of hose to the city by the Dubuque Co. was reported and ratified and the bond accepted.

The water committee was appointed to confer with representatives of the water company relative to the purchase of a filtration outfit for the plant.

The iron furnace was exempt from taxation for a period of five years and similar action for the pole and certain company was deferred as the company is to change its name.

The committee appointed to investigate the complaint of hackmen about being shut out from certain sections of the Illinois Central depot, reported that the city has no right to interfere in the matter as the company leased its own property to the Palmer Transfer company.

The People's Telephone company was given the privilege of running conduits under the brick streets on Broadway at Fifth street for underground wires.

The mayor was instructed to call a meeting of the general council to elect a milk, meat and live stock inspector for another term.

City Attorney J. M. Worten called attention to the decision of Judge Evans against the city in the bond case and recommended that it be carried no higher. Action was deferred in order to await the return of County Judge Lightfoot who had charge of the case for the city.

Attorney Worten reported that the city had no right to compel the telegraph companies to pay license tax, as it would be regulating interstate commerce, something controlled by the federal government.

He also said that the contract of 1894 with the Western Union relative

WILL RULE MILITARY SCHOOL

COL. KITSON MADE CHIEF OF SANDHURST.

London, August 19.—It is announced that Colonel Gerald C. Kitson has been appointed governor and commandant of the military college at Sandhurst. The recent incidents at the college, when incendiary fires were set, presumably by cadets, besides the report of the royal commission, convinced the war office of the necessity of radical changes in the administration of the college. It is hoped that Colonel Kitson's study of the West Point academy, while he was military attaché at the British embassy, will enable him to remedy admitted defects.

PUT TO THE TEST

PADUCAH PEOPLE APPRECIATE A GOOD THING.

Everybody has them now or trouble.

But people having any itching of the skin

Have many hours of trouble.

Nothing so annoying. Nothing so irritating.

Scratch it, it becomes worse.

Leave it alone and you can hardly stand the misery.

Itchiness comes in many forms.

Eczema and horrid itching piles.

Relief and cure are here at last.

Paducah has put it to the test.

Doan's Ointment cures every form of itching of the skin.

People at home are learning that this is so. Here is a proof in a citizen's statement.

Mr. J. R. Womble of 1005 South Fourth street, carpenter by trade, says: "For six years itching hemorrhoids were the bane of my existence. During the day when overheat I suffered and at night my rest was disturbed. I tried everything about which I read of which friends and acquaintances advised me to try, still the hemorrhoids existed. The first application of Doan's Ointment procured at DuBois and Co's drug store gave me relief. After the second day's treatment I slept the succeeding night like a child. It is nearly three months since I stopped the use of Doan's Ointment and there has been no sign of a return. This should leave no doubt in the minds of Paducah people about the merits claimed for that preparation."

BULLET WAS FATAL

George Howard Died Last Night From Wound.

He Made No Dying Statement, as He Thought He Would Get Well.

George Howard, the one-legged man shot in the county at one of the railroad camps, it is alleged by Charles Gardner, alias Gordon, colored, who escaped, died at 8 o'clock last night after an operation had been performed to save his life. He was suddenly seized by violent vomiting about the hour named and quickly expired.

An operation was performed on Howard yesterday afternoon. He was found to be mortally injured, the ball perforating the intestines in two places, and also the liver.

County Attorney Graves went out to the poor farm to take the man's dying statement, but he said he didn't believe he was going to die, so this would have made the statement useless, and it was not taken.

Coroner Peal held an inquest today but nothing new was developed. He was unable to find any witnesses. An autopsy was held this morning by local physicians, and about the only evidence before the coroner was that the man died from a pistol wound.

Coroner Peal telephoned to Maxon's Mill this morning for witnesses and was informed that there were but four besides the dead man present at the shooting, including the negro who did it, and all have skipped out.

The remains will be buried in the county graveyard.

KILLED BY A METEOR.

San Antonio, Tex., Aug. 19—Ramon Cruise, a Mexican sheep herder, was struck on the head and killed by a fragment of a meteor while herding his flock near Ellis, in Edwards county.

Cruise was seated on a large flat boulder watching his sheep when the meteor fell. It struck the boulder and the impact shattered the stone. A fragment hit the herder in the temple and penetrated his head, causing instant death. The largest piece of the meteor found weighs four pounds.

The bride is one of Clinton's most popular girls, and is highly accomplished.

QUAINT, QUEER AND CURIOUS SALT LAKE CITY.

The late Col. John Cookerel in the Cosmopolitan said, "There are three unique cities in America, and one of these is Salt Lake City." It is not only unique in its temple, tabernacle and other Mormon church institutions but quaint in appearance, with its narrow streets, immense blocks and martial rows of shade trees. It has, perhaps, more attractions to the square yard than any city in the country, and its climate, while temperate all the year round, is particularly delightful in summer. The great Salt Lake, with its magnificent Saltair resort, where the water is "dearer and denser" than that in the Dead Sea in Palestine, is an attraction in itself that people come miles to see. There are many cool mountain and lake resorts nearby, also numerous very pretty cañon and park drives, and hot sulphur springs. Fishing and hunting can be had in every direction. The trip from Denver to Salt Lake City and Ogden, via the Denver and Rio Grande and the Rio Grande Western, is one of unsurpassed pleasure. Here nature is found in her sternest mood and the whole line is a succession of rugged canyons, waterfalls and picturesque valleys. No European trip can compare with it in grandeur of scenery. During the entire summer there will be low excursion rates to Salt Lake City and contiguous country. It is on the road to the Pacific coast, if that be your destination. Write S. K. Hooper, G. P. and T. A., Denver, Colo., for beautifully illustrated pamphlets, etc.

DIED FROM POISON.

DAILY THOUGHT.

The most manifest sign of wisdom
is continued cheerfulness.

—Montaigne.

THE WEATHER.

Partly cloudy tonight and Wednes-
day.

The Bowling Green undertaker who
want crazy from having to attend
thirty-six funerals in thirty-one days
ought to follow some other profession.
They say undertakers follow the medi-
cal profession.

The treaty with China has been
signed, and the effect will be an open
door to us in the Orient. We expect
to carry everything in a business way
before us in China, as we have in
Europe.

It seems that the Potter crowd,
which contented a few months ago
that a man could be county chairman
without being a member of the county
committee, have flopped and now
think that a man can't. Chairman
Emery says he will show them a
thing or two.

If the New York Yacht club didn't
do anything it could afford to ignore
Mr. Thomas W. Lawson's book touch-
ing on the American Cup races. As it
has taken offense so seriously and
brought suit for libel, it is ten to one
that Mr. Lawson will prove every-
thing he said and a few other things
besides.

Europe is gradually becoming
alarmed over the prospect of being
"octopusped" by America. It is an-
nounced by one of the biggest concerns
of Germany that the only salvation
for European electrical concerns is to
form combines, reduce the cost of
production, and this may enable them
to compete with hustling America.

It appears that Mr. Charles M.
Schwab, president of the steel trust,
can well afford to retire now. He
made money perhaps faster than any
man in the history of the world who
worked for a salary, and having a
praiseworthy competency, he can step aside
and allow someone else to get rich
in the steel business.

The Owensboro express robbery
seems to be puzzling the officers in
Kentucky as greatly as the Bartholin
murder mystery the police at Chicago.
The police don't seem to know any-
thing about either, and the newspapers
are working them up. These days the
newspapers are better detectives, and

often better enforcers of the law,
than regularly paid officers.

There is more trouble reported in
the Philippines among some of the
poor, friendly Moros, who have this
time only killed two more American
soldiers from ambush and wounded
a few more. After awhile when
the philanthropic people of Boston
shall have supplied them all with
firecrackers, go-carts and tin horns
perhaps they will quiet down and
behave.

China seems to be slowly moving
her cumbersome form as she awakes
from her long hibernation. The war
with the powers seems to have roused
her to the demands of civilization,
and she exhibits symptoms of respond-
ing. China promises to have an un-
precedented display at the St. Louis
exposition, one that will open the
eyes of the world to the splendor of
the Flowery Kingdom.

It is time to clean up the business
houses, remove all trash and have de-
fective wiring repaired. The insur-
ance re-raters are due and everything
should be ready for them. They
would have a good excuse just now
to raise the rates here, even if all the
houses were in good condition, be-
cause of the lack of fire hose. The
shortage is only temporary, but even
when the city gets the total amount
purchased it will not be as much as
she really needs.

If a Republican council had foisted
such a job as the brick street on the
public, and the property owners had
been treated under a Republican ad-
ministration as they have in the mat-
ter of repaving the pavements by the
contractor, now a city official under a
Democratic council, the howl that
would have gone up from the local
Democratic organs would have ascend-
ed to high heavens and then not
stopped. It is the Democrats who
aid it, however, and who are still
imposing on the people, so it's all
right!

A great deal of interest has been
aroused among local politicians by the
report that influence is being brought
to bear on Mayor Lang to run for
mayor next year. It is a source of
constant wonder how such a race
would terminate, but it is thought
probable that the former mayor would
wipe up the earth with the present
mayor in the primary. Former Mayor
Lang beat ex-Mayor Reed, the only
man who ever beat Mayor Yeiser, and
it is reasoned out that if Mayor Yeiser
could not beat Mr. Reed he could not
beat Mayor Lang, who did beat Mr. Reed.

VOLCANIC FIRES.

ANOTHER ISLAND REPORTED
DESTROYED BY LAVA
AND GAS.

Yokohama, August 19.—The little
island of Torishima was overwhelmed
by a volcanic eruption between Aug-
ust 13 and August 15, and all the in-
habitants, numbering 150 persons,
were undoubtedly killed. The island
is covered with volcanic debris and all
the houses on it have disappeared.
The eruption is still proceeding and is
accompanied by submarine eruptions
in vicinity, which make it dangerous
for vessels to approach island. Torish-
ima is one of a chain of islands extend-
ing between the Bonin Islands and
Hondo, the biggest island of Japan.

BADLY KICKED

Narrow Escape Today of Louis Rod-
den in Mechanicsburg

Almost Kicked to Death Before He
Could Get Out of Hoof.

Louis Rodden, age 15, of Mecha-
nicsburg, had a narrow escape from
probable fatal injuries this morning
at the Kilgore heading factory in Me-
chanicsburg, and as a result is suffer-
ing from a badly broken left arm.

The boy works about the mill and
was unhitching a team when one of the
horses began to kick. The boy was in
such a position as to be unable to ren-
dily get out of reach of the hoofs, and
in making his escape caught one of the
hoofs on the right arm. The bone was
broken between the elbow and wrist
and is a bad fracture. The youth had
a narrow escape and but for his
speedy actions in extricating himself,
he probably would have been kicked
to death. Dr. J. T. Troutman dress-
ed the fracture.

PEARY'S CHANCES.

CAPT. BERNIER SAYS THE
AMERICAN HAS NONE
AT ALL.

Halifax, August 19.—Captain Bern-
ier, the French-Canadian explorer,
who is now collecting funds for his
dash to the north pole by the way of
Behring sea, does not believe that
Peary has reached the pole. Captain
Bernier has arrived at Sidney, having
piloted George W. Childs Drexel's
yacht down the St. Lawrence from
Quebec, and when asked about Peary's
chances of reaching the pole said:

"Why, he has no chance at all.
How do you expect him to reach the
pole with 7 toes disabled and without
a doctor. But we must give him credit
for what he has done; he deserves it.
You will find, however, that he will
admit on his return that it is impos-
sible to reach the North Pole by that
route."

TWENTY-FIVE GRAINS

THIS IS WHAT YOUNG LADY OF
BARDWELL TOOK.

Additional information received of
the suicide of Miss Maudie Woolfolk,
whose death is mentioned elsewhere
in a brief telegram, shows that the
cause for the rash deed was a love
affair.

It is said that the young lady was
very much in love with a young man
of Bardwell and her father, Mr. Tom
Woolfolk, the road supervisor of Car-
leisle county, forbade her going with
him. He lectured her the night be-
fore and would not let her go driving
with the young man or to go to church
with him. She took twenty-five grains
of morphine, enough to kill several
persons, and when found nothing the
physicians could do could save her.

OFF ON A TRIP.

COUNTY ROAD SUPERVISOR
JOHNSON GOES TO
CHICAGO.

County Road Supervisor Bert John-
son and Contractor Will Yancey have
finished work on the county roads,
and today left for Chicago on a vaca-
tion after a hard summer's work. It
is their first trip to the Windy City
and their friends are very solicitous
about their welfare. They have their
pocketbooks securely chained to the
inside of their clothing, and carried as
few superfluous clothes as possible.

FIRM GOES UNDER

Spaulding & Merritt, of Fancy Farm,
File a Petition in Bankruptcy.

The Liabilities Amount to \$8,175—
Several Paducah Creditors.

A joint petition in bankruptcy was
filed this morning in the United States
court here by Spaulding and Merritt,
general merchandise merchants of
Fancy Farm, Graves county, Ky.,
and by Samuel Spaulding and Orlando
Merritt, individual members of the
firm.

The concern is one of the best
known in that section of the state, and
the petitioners state that they are un-
able to meet their obligations, and are
ready to turn over their possessions to
creditors.

Several Paducah concerns are men-
tioned among the creditors, as fol-
lows:

Oovington Brothers, \$508.75; J. R.
Smith and Co., \$171.93; S. Fels and
Bro., \$58.06; Paducah Saddlery Co.,
\$14.14; Harlan and Lowe Milling Co.,
\$72.40.

Among the other largest creditors
are:

J. M. Robinson, Norton and Co.,
\$1,406.60; Strong, Thalmueller and
Co., \$305.56; W. B. Belanap and Co.,
\$234; all of Louisville.

Sperry, Handy and Welsh Lint Co.,
Nashville, \$186.25.

John Gutes Co., Cincinnati, \$114.20.

I. Gansaul Co., Evansville, \$308.93.

There are a number of smaller cred-
itors, the total amount of liabilities
being \$8,175.

The assets are given in at a stock of
groceries valued at about \$5,000, and
notes amounting to about \$1,000.

MORE WARRANTS.

HUMORED THAT PROPERTY
OWNERS WILL CAUSE
MORE TROUBLE.

It is understood that the property
owners on the Cairo extension of the
I. C. will make a hard fight against
the railroad company, and rumors
were afloat this afternoon to the effect
that the property owners, or one
whose land is located near the hott-
ing land, will swear out warrants
against the company for trespass, and
this will necessitate the company
stopping work for a time again.

The rumor could not be substantiated
but it is given out on apparently good
authority that the warrants will be
issued late this afternoon in a magis-
trate's court.

LOVE AT FIRST SIGHT.

WEDDING OF AN INDIANA
DRUMMER AND MISS ADEL-
INE REES, OF NEW
ORLEANS.

Hopkinsville, Ky., August 19.—D.
O. Haering, an Evansville, Ind., com-
mercial traveler, and Miss Adeline
Rees, of New Orleans, were married
here by the Rev. J. L. Wyatt. The
young people met at Orleans last
week. It was a case of love at first
sight, and the wedding was at once
arranged. The couple will spend a
week at Orleans before going to
Hvansville.

RESIDED HERE

FORTY-FIVE YEARS.

Mrs. Mary E. McClain, aged 63, of
the Cairo road, died yesterday of gen-
eral debility and will be buried today
at Oak Grove. She had been a resi-
dent of the county for about forty-five
years.

IF YOU ARE CONSCIOUS OF
FAILING STRENGTH AND
ENERGY THIS MONTH,
MAKE USE OF

Paine's Celery Compound

No Other Medicine Can Guarantee
Such Happy Results.

Men and women, young and old, of
every rank in life, freely admit that
they are more conscious of overtaxed
nervous strength in the hot weather
than at any other season.

When such a condition is experi-
enced Paine's Celery Compound aff-
ords advantages and results that no
other remedy can offer with honesty.
It vigorously cleanses the blood and
regulates the tardy circulation. It
strengthens and encourages the kid-
neys and enables them to filter from
the blood all waste and morbid mat-
ters; it secures strong, firm nerves,
gives sweet and natural sleep to the
nervetired and brain-weary. In a
word, Paine's Celery Compound is a
true summer life-giver and health
builder. Mr. E. M. Stephenson, of
the American Baptist Publication so-
ciety, 127 Wabash Ave., Chicago, Ill.,
says:

"I used Paine's Celery Compound
for an acute attack of nervous pros-
tration at a time when I had a large
number of engagements ahead. I took
it according to directions, and kept on
till two bottles had been used. All
trembling, throbbing and vertigo
disappeared the first week. I kept
on with my engagements after that
week and gained all the time. From
the start my appetite improved, and
I assimilated my food and increased
in weight. The Compound strength-
ened my voice also preventing wear-
iness in speaking and singing. A
very noticeable effect was the
strengthening of the eyes, making
it easy to read on the train."

FURIOUS RACING PROMISED

Racing at a meeting sometimes has
objectionable features, but not so with
the racing to be seen on the hippo-
drome track of the Great Wallace
Show, which will exhibit in Paducah
on Friday, September 5.

With the evil influence of a profes-
sional race course eliminated and the
best attention given to every detail,
the hippodrome racing of the Wallace
circus is real; it is fast and in earnest.
The variety of the races, together with
the required skill for turning at the
short ends of the track at full speed,
gives to every spectator a thrill of
genuine sensation. There are 12 differ-
ent styles of races. Mr. Wallace pays
a premium to the lady and gentleman
every week winning the the greatest
number of races during the week.
There is no question that the races of
the Wallace Show are on the square.
Even those people who are not fond
of racing generally admit that the
genuine, exciting races of the Wal-
lace Show are an exhilarating climax
to its excellent circus performances.

An Iowa paper said that, "even the
tigers in the Wallace cages are larger
and finer than his tigers on the bill-
boards." That was an original way
the Hawkeye editor had of expressing
the general verdict of the public, that
the Great Wallace Show is larger and
better than its rivals to be.

THE TIME IS BRIEF

(Continued from first page)

the second succeeding annual election
at which city, town, county, district
or state officers are to be elected; and
then, if any part of the term remains
unexpired, the office shall be filled by
election until the regular time for the
election of officers to fill said offices.
Vacancies in all offices for the state at
large, or for districts larger than a
county, shall be filled by appoint-
ment of the governor. No person
shall ever be appointed a member of
the general assembly."

This is construed in a footnote,
based on decisions of the court of ap-
peals, as follows:

"Vacancies in elective offices.—This
section applies to offices for towns and
cities, and to offices created by the
legislature, as well as constitutional
offices. Section 160 is to be construed
in connection with this section. Vac-
ancies in city offices may be filled at
the next succeeding election, although
city officers are not then elected, and
an election to fill a vacancy in a city
office may be held at the time of a
congressional election. Shelley vs.
McCallough, 97 Ky., 164; Todd vs.
Johnson 99, Ky., 518; Pence vs. city,
19, R., 721."

County Chairman Emery is not
worried, apparently, by the claims of
some of the members of the county
committee that he loses his job. The
party law quoted requiring the chair-
man of county committees to be a
member of the committee has been
revised and amended, and no longer
requires the county chairman to be a
member of the committee. While it
states that the amendment does not
apply to cities of the first and second
class, it does not say that the amend-
ment does not extend to every county,
and it is so construed, and leaves only
chairmen of first and second class city
committees under the old law.

These Fall for the Doctor.

A Brooklyn clergyman, whose name
is withheld out of deference to his feel-
ings, tells a story on himself. Recent-
ly he had occasion to drop into a kin-
dergarten where he is well known and
where the ladies in charge are always
glad to see him. "Why, doctor," said
the ladies, "we are so glad to see you.
We would like to have you tell the
children something about the differ-
ence between the Froebel and the Pe-
telozzi systems of kindergarten work."
The doctor was expected to say some-
thing to the pupils. He had already
mounted the platform and thought to
himself: "Petelozzi? Who was he?
What was his style?" "I was stumped,"
said the doctor. "Now for a little bit
of diplomacy." He began, and gave
the youngsters a few glittering gen-
eralities; then pulling out his watch he
said "My gracious, I have used up all
my time," and he left in a hurry with-
out ever referring to the strange sys-
tem of juvenile instruction. But he ac-
quainted himself with this method
very soon afterward, and the next time
he visits the school he will be prepared
to enlighten the children.

The Art of Friendship.

In an article on "The Art of Friend-
ship," in Macmillan's Magazine, the
writer is rather pessimistic of today's
friendships. He seems inclined to
think that friendship is a lost art. He
remarks:

"There is reason for a suspicion, if
not more than a suspicion, that the
art of friendship is dead among us.
The friendship of the ancients, both
of Greece and Rome, was very exact-
ing. In modern times we should look
a long day for such mutual regard as
that of Damon and Pythias, which
softened the heart of Dorysian him-
self. Friendship, in our crowded days,
covers a wider area, but as in the
case of all extensive developments it
has lost intensity. It has become
as Swift described it—"the friendship
of the middling kind." But rarely do
we see the stubborn, stolid, mutual
regard which Cleon Jonathon, self-
ambulatory, seeking for confidence,
priceless-rich in trust and confidence."

Union City, Aug. 19.—Patrolman Simmons put Ed Wright in the calaboose on the charge of drunk and disorderly. About 11 o'clock the prisoner piled the bedclothing against the door and set it afire. MARRY SOON.

Announcement of the Wedding of
Miss Lesh and Mr Geo Hart.

The Ceremony to Be Performed September 8 at Presbyterian Church.

The marriage of Miss Virginia Lesh and Mr. George H. Hart will take place on September 8 at 5 o'clock in the afternoon at the First Presbyterian church, with which both are prominently identified. Rev. W. E. Cave, D. D., officiating. This is the first announcement of an event which has been rumored for some time, and in which society has been much interested.

Miss Lesh is the daughter of Mrs. M. E. Lesh and is both charming and talented, being a delightful musician and of a striking personality. She has only lived in Paducah for a few years, but in this short time she has made a wide circle of friends. She is a graduate of the Boston Conservatory of Music and has been most gracious with her fine voice, giving pleasure to many in church, concerts and parlor recitals. She is identified with the religious, philanthropic and social life of Paducah.

Mr. Hart is the junior member of the large hardware firm of Geo. O. Hart and Son, and is one of the foremost younger business men of Paducah. He is possessed of many fine and sterling qualities, and is a leader in the religious work of the city.

The First Presbyterian church is now being remodeled, and this will be the first event held in it on its completion, as well as the first of the fall weddings. It will be a pretty afternoon occasion with others for the only attendants, and the couple will leave immediately on a bridal tour of the northern lakes. They will have the good wishes of a host of friends both here and elsewhere.

Miss Lesh is now visiting in Jackson, Tenn., where she is attending a house party composed of special girl friends at the home of Miss Anna Hayward. Several of these friends will return with her for the wedding.

Mrs. Mollie Bennett and daughter, Miss Virginia, of Frankfort, and Miss Caldwell of Boyle county will arrive today on a visit to Mr. G. O. Crumbaugh and family.

Miss Jessie Meacham and Miss Bessie Lesh have gone to Union City.

MAN, HOUSEKEEPER.

TRIED IT NINETY DAYS.

There is one case on record where a man had a good easy time of it while his wife was away, and she tells the tale.

"Circumstances made it necessary for me to leave husband for a month to pursue his bachelordom as best he could. He resolved to give Grape-Nuts a thorough trial, as he had for years been subject to bilious attacks and indigestion.

"During my absence he gained in weight and his health seemed perfect, therefore I give you, for the benefit of suffering men in particular, and women in general, his menu for the ninety days: Four teaspoonfuls of Grape-Nuts sprinkled with a little salt and covered with good cream, one slice of bread and butter, one large cup of Postum Cereal Coffee (made according to directions) and all the fruit he wanted.

"He worked during the time nine hours a day and never realized he possessed a stomach. This diet my husband earnestly recommends to office men, students and to all people of sedentary habits especially, and let me tell it to all wives, this meal can be prepared by an inexperienced servant, a young son or daughter, thereby saving hours of labor. Try it. It will make your work lighter, your purse heavier, your body healthier and all of you happier." Name given by the Postum Co., Battle Creek, Mich.

COMMERCIAL CLUB.

IT IS TALKED ABOUT THAT
CARNIVALS MAY BE UNDER
ITS AUSPICES.

Carnivals have proven such successes in Paducah in the past two years that the people seem loth to give them up, although the Elks will be unable on account of a rule adopted by the grand lodge to give any more.

There is already talk of having the Commercial club give the next carnival, and it does not seem probable that other fraternal organizations will be loth to take up the work and make something out of it.

The hardest hit lodge in the state is at Lexington, where a regular association has been organized to give a carnival and fair combined every year.

WAGON FACTORY.

MR SYLVESTER PIKE, OF
UNIONTOWN, HERE SEEK-
ING A LOCATION.

Mr. Sylvester Pike, the well known wagon manufacturer of Uniontown, Ky., arrived in the city last night and today is being shown about by Secretary Datus, of the Commercial club. Mr. Pike makes wagons, and wants to locate here. He had a representative here a short time ago, but nothing definite was done. The plant is a large one, and would be a valuable addition to Paducah.

Mrs. C. H. Fowlkner and children, of Dyersburg, are visiting her mother, Mrs. Hawkins, of Washington street.

How Words Originate.

When one of the boodle aldermen coined the word "comline," did anybody imagine that within a few years a justice of the Supreme Court of the United States would use it in a solemn opinion, with no apparent doubt of its perfect validity and propriety?—New York Tribune.

THEATRICAL NEWS.

The Kentucky play, "John Martin's Secret," is to be presented at La Belle park theater tonight, together with a number of great specialties by the Cullenblue trio and a fine concert of orchestral music.

Master Mechanic Barton returned from Chicago this morning.

A Solemn Amendment.

The Senate was considering the bill to ratify the treaty with the Crow Indians in Montana.

"Are there any amendments?" asked the presiding officer.

"There is one committee amendment," whispered the clerk.

"The committee amendment will be reported," said Mr. Frye.

Amid dignified silence the clerk read as follows:

"Strike out 'two jackasses' and insert 'one stallion.'"

The amendment sounded so ludicrous that the senators burst out laughing. Senator Platt of Connecticut almost rolled out of his chair.

MUZZLING THE PRESS.

HOW THE AUTOCRATIC RUSSIAN AUTHORITIES DEAL WITH EDITORS.

A very interesting insight into the methods by which the Russian press is muzzled is to be gained in the perusal of a list of special circulars sent out during the last year. This list has been obtained by the Arbeiter-Zeitung of Vienna, and must be understood as supplementary to standing orders and the usual routine of the Russian press censor.

September 8, 1901. No. 7130—The statement concerning Count Leo Tolstoy's journey to the Crimea, contained in the Petersburg Nachrichten, is not to be reproduced.

October 16, 1901, per telephone—You are recommended to print nothing concerning the movement in the higher schools.

November 10, 1901. No. 9200—In Jaroslavl the trial is proceeding of some students of the Demidov Lyceum, who are accused of disturbing public order, rioting in the streets and ill-treating police officials. You are recommended to say absolutely nothing about this matter.

December 22, 1901, per telephone—You are recommended to say nothing about the appointment of the Austrian Ambassador.

March 10, 1902. No. 2377—Inasmuch as, in the Government Messenger, is the announcement that Gorki's election to the Academy of Sciences is invalid, it is not stated whence the communication emanates, you are recommended, by order of the minister of the Interior, to head it thus, "From the Imperial Academy of Sciences."

However slight at this time of year and in this climate, it is the forerunner of malaria. Disposition to yawn, and all that tired out feeling even comes before the chill. CURED PARALYSIS.

BALFOUR LOSES MANY FRIENDS.

PASSING OF EDUCATIONAL BILL
CLAUSE REGRETTED BY
HIS VOTARIES.

London, August 19—Although Mr. Balfour has succeeded in passing the clause of the education bill which gives preeminence in the management of voluntary schools to churchmen, the battle over the measure is not ended. In all the non-conformist journals today there is a fierce tone of protest which promises trouble later on.

More than this, he has unquestionably alienated from his party a large and growing class of citizens who care little for the traditional distinctions of party, but a great deal for pressing, national needs, among which an efficient organization of secondary education is by universal admission paramount.

No stronger proof of this could be had than the attitude of the Morning Post, a friendly critic of the ministry. "It is a misfortune," says the Post, "that the education bill has not been in charge of a minister conversant with the subject and acquainted with the course of educational thought throughout the last 50 years." Many influential supporters of the government are compelled to admit that Mr. Balfour has thrown to the winds much that the education department has for years been striving to obtain. The measure is unacceptable to some of the most intelligent friends of secondary education.

"If God wills it!" replied the old sailor. "Against him will nothing can be done."

"You hear them?" said Alcide Jolivet. "Yes," replied Michael Strogoff, "but God is with us."

Meanwhile the situation became more and more serious. If the raft once ceased to make headway, the fugitives would not only never reach Irkutsk, but they would be obliged to abandon their floating apparatus, which, crushed by the ice blocks, would not be long in sinking under the waters. The willow bindings were already breaking, the fir trunks, violently separated, were becoming entangled under the hard crust, and such the unfortunate people would have no other refuge than the ice itself. Then, when daylight should come, they would be perceived by the Tartars and massacred without pity.

Michael Strogoff returned to the back part of the raft, where Nadia was waiting for him. He approached the young girl, he took her hand and put to her that invariable question, "Nadia, are you ready?" to which she answered as usual:

"I am ready."

For some versts more the raft continued to make its way through the floating ice. If the Angara should be choked up with ice, it would form a barrier, and consequently it would be impossible to follow the current. Already the passage down the river was slower. At every instant there were collisions, or time was lost by having to make long turnings. Here they must escape landing on the ice; there they must make a narrow pass between it—

In this, many anxious drawbacks.

And now only a few hours of the night remained. If the fugitives did not reach Irkutsk before 5 o'clock in the morning, they must give up all hope of ever entering there.

At length, at half past 1, in spite of all their united efforts, the raft struck against a thick barrier and stopped altogether. The ice which was floating down the river cast itself upon it and forced it against the obstacle and held it motionless as if it had been driven upon a reef.

At this place the Angara becomes narrowed to not more than half its normal breadth; hence the accumulation of ice blocks, which were by little and little piled one upon another under the action of the double pressure, which was considerable, and of the cold, whose intensity was redoubled. At 500 paces down the river again became wide, and ice blocks, detaching themselves by little and little from the lower edge of that field, continued to float down to Irkutsk; hence it is probable that without that narrowing of the banks the barrier would not have been formed, and the raft could have continued to descend the current. But the evil was irreparable, and the fugitives had to give up all hope of reaching the end of their journey. If they had had at their disposal the tools which the whalers usually employ to open cut canals across the icefields, if they had been able to cut this field as far as the place where the river became wider, perhaps the time would not have been wanting, but not a single saw, not a pickaxe, nothing with which to cut the crust, which the extreme cold had rendered as hard as granite.

What should they do?

At that moment rifle shots were heard on the right bank of the Angara. A shower of bullets was directed upon the raft. Had the misadventure been perceived? Evidently, for other detachments resounded on the left bank. The fugitives, caught between two fires, became a target for the Tartar marksmen. Some were wounded by these bullets, although in the midst of the great darkness they only fled by chance.

"Come, Nadia," whispered Michael Strogoff in the ear of the young girl.

Without making any observation, ready for everything, Nadia took the hand of Michael Strogoff.

"I am thinking of crossing the barrier," he said to her in a low voice. "Guide me, but let no one see us leave the raft."

Nadia obeyed. Michael Strogoff and she glided quickly over the surface of the icefield in a silence that was broken here and there by the firing.

Nadia crept on in front of Michael Strogoff. The balls fell around them like a shower of hailstones and crashed upon the ice. The surface of the field, rugged and with sharp edges, made their hands bleed, but still they kept advancing.

Ten minutes afterward the lower border of the barrier was reached. There the waters of the Angara again became free. A few large blocks of

ice, becoming by degrees detached from the field and floating with the current, descended toward the town.

Nadia understood what Michael Strogoff wished to attempt. She saw one of those blocks of ice that was only held by a narrow tongue.

"Come," said Nadia.

And both lay down on this morsel of ice, which a slight rocking loosened from the barrier.

The block began to make its way down the river. The river itself became wider, and the route was free.

Michael Strogoff and Nadia could hear the firing of guns, the cries of distress, the shouts of the Tartars that made themselves heard up the river. Then little by little those cries of deep anguish and of ferocious joy were lost in the distance.

"Oh, those poor companions!" whispered Nadia.

For half an hour the current quickly carried along the block of ice which was bearing Michael Strogoff and Nadia. At every moment they feared that they might sink under the water. Being caught in the stream, it followed the middle of the river, and it would not be necessary to give it an oblique direction until there was question of making for the quays of Irkutsk.

Michael Strogoff, with his teeth set and his ears ready to catch the least sound, did not utter a single word. Never was he so near attaining his end. He felt that he was about to succeed.

Toward 2 o'clock in the morning a double row of lights lit up the somber horizon on the two banks of the Angara.

On the right was the glare from the lights of Irkutsk, on the left the fires of the Tartar camp.

Michael Strogoff was not more than half a verst from the city.

"At last!" whispered he.

But suddenly Nadia gave a cry.

At that cry Michael Strogoff rose up from the block, which became very unsteady. His hand stretched out toward the head of the Angara. His face, all lit up with the reflections of blue lights, became terrible to look at, and then, as though his eyes had been reopened to the light, he cried:

"Ah, God himself is against us!"

CHAPTER XVII.

IRKUTSK, capital of eastern Siberia, has in ordinary times a population of 30,000 souls. A high hill of solid rock, skirting the right bank of the Angara, serves as a splendid position for its churches, crowned by a high cathedral, and for its houses, built in picturesque disorder along its slopes.

Seen from a certain distance, from the top of the mountain which runs along the great Siberian route at a distance of some twenty versts, with its domes and belltowers, its graceful spires, like those of minarets, its spiral domes, it has a somewhat oriental appearance. But that oriental appearance vanishes from the eyes of the traveler from the moment he enters the town. The town, half Byzantine, half Chinese, becomes at once European by its macadamized streets, bordered by sidewalks, with their rows of gigantic birch trees, by its brick and wooden houses, some of which have several stories, by its many splendid equipages—in fine, by the whole body of its inhabitants being very advanced in the progress of civilization, and to which the latest fashions of Paris are not at all strangers.

At that epoch Irkutsk, refuge for the Siberians of the province, was crowded. It abounded in resources of every kind. Irkutsk is the emporium for all that countless merchandise which is exchanged between China, central Asia and Europe. They did not fear to draw there, the peasants from the valley of the Angara, the Moungols-Khalkas, people from Toungouze and Koutret, and to allow the wilderness to stretch out between the lavanders and the town.

Irkutsk is the residence of the governor-general of eastern Siberia. Under him is a civil governor, in whose hands is concentrated the administration of the province, a head of the police, who has a great deal to do in a town where exiles abound, and lastly a mayor, one of the leading merchants, an important personage by his influence and by the influence which he has over his fellow citizens.

The garrison of Irkutsk was then composed of a regiment of foot Cossacks, which numbered about 2,000 men, a body of foot gendarmes, who

wore the helmet and blue uniform striped with silver.

Besides, it is known that on account of particular circumstances the brother of the czar had been shut up in the town since the commencement of the invasion.

That situation must be given in detail.

It was a journey of political importance that had led the grand duke into those distant provinces of eastern Asia.

The grand duke, after having visited the principal cities of Siberia, traveling in military rather than princely style, without any retinue, escorted by a detachment of Cossacks, had gone even as far as the countries beyond the Balkan mountains. Nicholaeievsk, the last Russian town which is situated on the shores of the sea of Okhotsk, had been honored by his visit.

Having reached the boundaries of the immense Muscovite empire, the grand duke was returning to Irkutsk, from whence he would soon return to Europe, when the news reached him of that invasion, which was as sudden as it was menacing. He hastened to re-enter the capital, but when he arrived there communication with Russia had been cut off. He still received a few telegrams from St. Petersburg and Moscow. He could even answer them. Afterward the wire was cut under the circumstances already known to the reader.

Irkutsk was isolated from the rest of the world.

The grand duke could do nothing but organize resistance, a thing which he did with that firmness and coolness of which he had given under other circumstances incontestable proofs.

News of the taking of Iehim, of Ounsk, of Tounsk, came successively to Irkutsk. They could not count on being soon relieved, but they must prevent at all prices the occupation of the capital of Siberia. The few troops scattered over the province of Amur and those in the government of Irkutsk could not arrive in sufficient numbers to arrest the Tartar columns. Besides, since Irkutsk could not possibly escape being invested, it was of the utmost importance to put the town in a position to sustain a siege of some length.

These works were begun on the day on which Tounsk fell into the hands of the Tartars. At the same time as that last news the grand duke learned that the emir of Bokhara and the allied khans were directing the movement in person, but what he did not know was that the lieutenant of those barbarous chiefs was Ivan Gagarin, a Russian officer whom he himself had cashiered.

From the first, as has been seen, the inhabitants of the province of Irkutsk had been ordered to abandon the towns and villages. Those who did not seek refuge in the capital were compelled to retire beyond Lake Bikhail, to where the invasion would not likely extend its ravages. The crops of corn and forage were requisitioned for the town, and that last rampart of Russian power in the extreme east was prepared to resist for some time.

Irkutsk, founded in 1611, is situated at the confluence of the Irkut and the Angara, on the right bank of the river. Two wooden bridges, built on piles and so arranged as to open the whole width of the river for the necessities of navigation, joined the town with its outskirts which extended along the left bank. The outskirts were abandoned, the bridges destroyed. The passage of the Angara, which was very wide at that place, would not have been possible under the fire of the beleaguered. But the river could be crossed either above or below the town, and as a consequence Irkutsk was in danger of being attacked on the east side, which was rampart protected.

It was, then, in works of fortification that the hands were first employed. They worked day and night. The grand duke found a spirited population in supplying that need, and afterward he found them most brave in its defense. Soldiers, merchants, exiles, peasants, all devoted themselves to the common safety. Night days before the Tartars had appeared on the Angara ramparts of earth had been raised. A moat, flooded with the waters of the Angara, had been dug between the inner and outer wall of the fortification. The city could no longer be taken by a sudden assault. It must be invested and besieged.

The third Tartar column—that which had ascended the valley of the Yenisei—appeared in sight of Irkutsk on the 24th of September. It immediately occupied the abandoned outskirts, of which the very houses had been destroyed in order not to impede the action of the archduke's artillery, which was unfortunately very insufficient.

The Tartars organized themselves while waiting the arrival of the two other columns which were commanded by the emir and his allies.

No More the Calla Lily.

Hereafter it must be called simply the "calla," and not the "calla lily."

The very careful and accurate Philadelphia Ledger gives this luminous explanation of the difference: "The 'calla lily,' it may be remarked, in correction of a report from California, is not a lily at all; it is a calla, and none of its beauty is lost in giving it its correct name."

Cases and Continues Others.

The grand jury will be in session in a short time now, and today, in accordance with the time honored custom, the keepers of lawdy houses were arraigned in police court for violating the law and fined \$40 and costs, about \$500. The saloon keepers are to be warranted for their quarterly fines in a few days.

James Melloy, a tailor, was charged with vagrancy, but proved that he staid with the family, and was only 19 years old, and was acquitted.

John Richardson, a tramp arrested and fined yesterday for sleeping in a box car, was examined by the city physician today and pronounced to be in such a condition that he cannot be confined, and he was ordered released by Judge Sanders.

A warrant against William Knight, colored, for nearly 13 years fireman on the Betty Owen, for stealing a pistol belonging to Roy Mason, was dismissed. Mason was working on the ferryboat yesterday and left the pistol in his coat pocket and did not know who took it. Knight, who is better known as "Lark" was charged with stealing it and when accused, of throwing it into the river, but there was no evidence against him.

An old breach of the peace warrant against Hattie Robb, colored, was dismissed.

The case against Willis Moore, colored, charged with stealing iron belonging to the Illinois Central, was continued. He claims he bought the iron at Brookport.

The case against Will Gordon, colored, charged with horse stealing, was continued until tomorrow. He is a boy and the horse was recovered.

It seems that any old day, so it is some time in the month of August will do to celebrate Emancipation day. For a long time our colored friend observed the fourth of August, occasionally it is switched off to the 8th; this year the celebration was held on the 16th. The Cairo observers had a big time yesterday at Sportman's Park, where the games, dancing, races, contests, fireworks and balloon ascensions took place.

A BROKEN HEART

Young Society Leader Causes a
Young Man to Shoot Himself.

She Had Jilted Him at the Behest of
Her Father—No Explanation.

Newport, R. I., Aug. 19—Robert H. Remington, whose engagement to Miss May Van Alen, the granddaughter of Mrs. William Astor, was recently broken, committed suicide here yesterday afternoon by shooting himself in the head in the Newport reading rooms in Bellevue avenue. Remington is said by his friends to have been heart broken over the loss of Miss Van Alen, who had jilted him as a result of her father's determined opposition to his suit.

He fired two shots from a heavy bulldog revolver. One bullet struck him in the center of the forehead, penetrating his brain. He died almost instantly.

Remington was alone in the library when he killed himself. The noise of the shots attracted servants, who rushed in and found him lying on the floor with his revolver beside him.

A physician was called, but when he arrived Remington was dead. The body was turned over to an undertaker.

Remington's broken engagement is generally regarded as the cause of his suicide, although so far as has been learned he left no message and never spoke in a manner to lead his friends to believe that he would take his life. The announcement that the engagement was broken came from Miss Van Alen's father, and it was generally understood that the young woman had thrown her admirer over.
